Dear Phil:

What a wonderful opening you provided for our Brown Bag Lectures with your program on "Multicultural Sensitivity"! The turn out was exceptional, including nearly twenty students and faculty who had never attended a previous Brown Bag.

Your engagement with each member of your diverse audience was a remarkable demonstration of the awareness and sensitivity you advocate. Surely, each one of us is a little bit more sensitive to those who are different from ourselves and a little bit more encouraged to stand up for what is positive.

Thank you so very much for coming among us, for opening yourself to us, and for making it a little easier for us to be open with each other. I am certain there will be carry over into other Brown Bag sessions this semester.

Sincerely yours,

Joyce S. Wszalek
Acting Assistant Director
