Dear Phillip:

Thank you for your wonderful presentations. I have heard nothing but good comments about the lecture and performance. Many people have commented on your common sense approach to diversity as being positive and non-threatening. I especially appreciated your willingness to share personal experiences with the audience.

I was very encouraged by the discussion concerning a possible role for you in the freshman orientation for September of 1993. I will contact your agent concerning possible dates as soon as the planning begins.

Thank you again for helping us begin our semester with a positive attitude toward cultural diversity.

Sincerely,

Sheila E. Carter
